

WP6

DISSEMINATION, EXPLOITATION AND STANDARDIZATION

(Angela D'Angelo)

UMOBILE Project, Kick-off Meeting

February 26th-27th, 2015

University College of London (UCL), London

-
- LEAD PARTNER: AFA Systems
 - PERSON-MONTHS: 52
 - DURATION: M01-M36
 - OBJECTIVE:
 - this Work Package aims to guide the project towards a viable exploitation and dissemination strategy as well as to manage the projects standardization activities.
-

- Task 6.1
 - Dissemination (**AFA**, ALL)
 - Task 6.2
 - Exploitation (**FON Technology**, SENCEPTION, AFA, ALL)
 - Task 6.3
 - Standardization (**UCAM**, UCL, DUTH, COPELABS)
-

- **Project logo and website**
 - **Collaborative portal** to assist the communication between partners
 - **Leaflets and Posters** to disseminate: 1) the objectives, concepts and vision of UMOBILE; 2) the public results, outcomes and findings from UMOBILE research
 - **Project video**
 - **Social networks**
 - **European events and workshops**
 - **Publications**
 - **Open source distribution** of relevant software developed by the project
-

- This task includes all activities that foster the successful application of project results that enables the partners to draw benefit after the project lifetime.
 - A feasibility **study of commercial operation of UMOBILE results will be carried out.**
-

- The objective of this task is to **contribute to ongoing work in standardization bodies** and ensure that UMOBILE research activities are aligned with the existing trends
 - Current efforts in the IETF and IRTF are addressed to position DTN and ICN as an exploitable technology. The UMOBILE objectives and results could influence both the communities in **joining ICN with DTN concepts.**
-

- **D6.1 : Dissemination Plan [6]**
 - Details on the dissemination plan that will be followed during the execution of the project.
 - **D6.2–3: Dissemination Reports (1) [18] – (2)[36]**
 - Lists information on all dissemination actions throughout the duration of the project. All meeting agendas, presentations and list of participants will also be included.
 - **D6.4 : Exploitation Plan [18]**
 - Information on the exploitation roadmap defined by the consortium.
-

- D6.5 : **Exploitation Report** [36]
 - All exploitation actions for the project.
 - D6.6 : **Standardisation Plan** [12]
 - Plan of the consortium for all standardisation activities.
 - D6.7 : **Standardisation Report** [35]
 - Standardisation activities carried out during the project.
 - D6.8 : **Awareness and Wider Societal Implications** [36]
 - Information on any awareness and wider societal implications that have arisen during the project.
-

- **D6.9 : Final plan for the Use and Dissemination of Foreground [36]**
 - Final plan summarises our strategy and concrete actions to protect, disseminate and exploit the foreground generated by UMOBILE project.
 - **D6.10 : Data Management Plan [6]**
 - UMOBILE will participate in the "Pilot on Open Research in HORIZON 2020". A Data Management Plan will be determined to explain which of the generated research data will be made open.
-

Milestone number¹⁸	Milestone title	WP number⁹	Lead beneficiary	Due Date (in months)¹⁷	Means of verification
MS11	Public & Internal Web Site has been set up	WP6	9 - AFA Systems	1	A Website dedicated to the project has been developed. The website will contain information on the project, the consortium, news, public results, upcoming events etc. A restricted internal section of the website will also be available for document sharing purposes among partners.
MS12	Dissemination plan available	WP6	9 - AFA Systems	6	The dissemination plan of the project has been defined.
MS13	Contribution to standards reported	WP6	9 - AFA Systems	35	All contribution to standards throughout the project duration has been documented.
MS14	Workshop on UMOBILE project organised	WP6	9 - AFA Systems	34	Workshop on the developed architecture and scientific results has been successfully organised.

The screenshot shows the UMOBILE project website. The header is blue with a navigation menu: UMOBILE, HOME, OVERVIEW, PARTNERS, DOWNLOAD, NEWS AND EVENTS, and CONTACTS. A search icon is on the right. The main banner features the UMOBILE logo (a cloud with signal waves) and the tagline "Universal, mobile-centric and opportunistic communications architecture". Below the banner, there are two news items. The first is "Kick-off Meeting" by Super User, dated 10 February 2015, with a photo of a desk and a speaker. The text describes a kick-off meeting for the three-year EU funded H2020 project UMOBILE in London at UCL campus, coordinated by Democritus University of Thrace (DUTH). The second is "2nd GAIA workshop" by Super User, dated 15 October 2014. The text describes a workshop in Cambridge at the Cambridge Computer Lab, focusing on bringing together the European research community to discuss a 3-5 research agenda on Universal Service Provisioning. On the right, under the "Partners" heading, are logos for the University of Cambridge, UCL, and copelabs.

UMOBILE

Universal, mobile-centric and opportunistic communications architecture

Kick-off Meeting

Super User News 10 February 2015

On February 25th and 26th 2015, the kick-off-meeting for the three-year EU funded H2020 project UMOBILE will be held in London. The meeting will take place at UCL campus. The project is coordinated by Democritus University of Thrace (DUTH).

2nd GAIA workshop

Super User News 15 October 2014

The 2nd GAIA workshop will be in Cambridge (Oct 20, 21) at the Cambridge Computer Lab. The workshop will be focussed on bringing together the European research community to discuss a 3-5 research agenda on Universal Service Provisioning. We will be discussing the different challenges as well as the different projects/deployments in this space.

UMOBILE project documentation

 **UMOBILE**

The collaborative portal is an online environment for collaborative work, exchange and processing of idea, basic file sharing and reporting internally and publicly about the work.

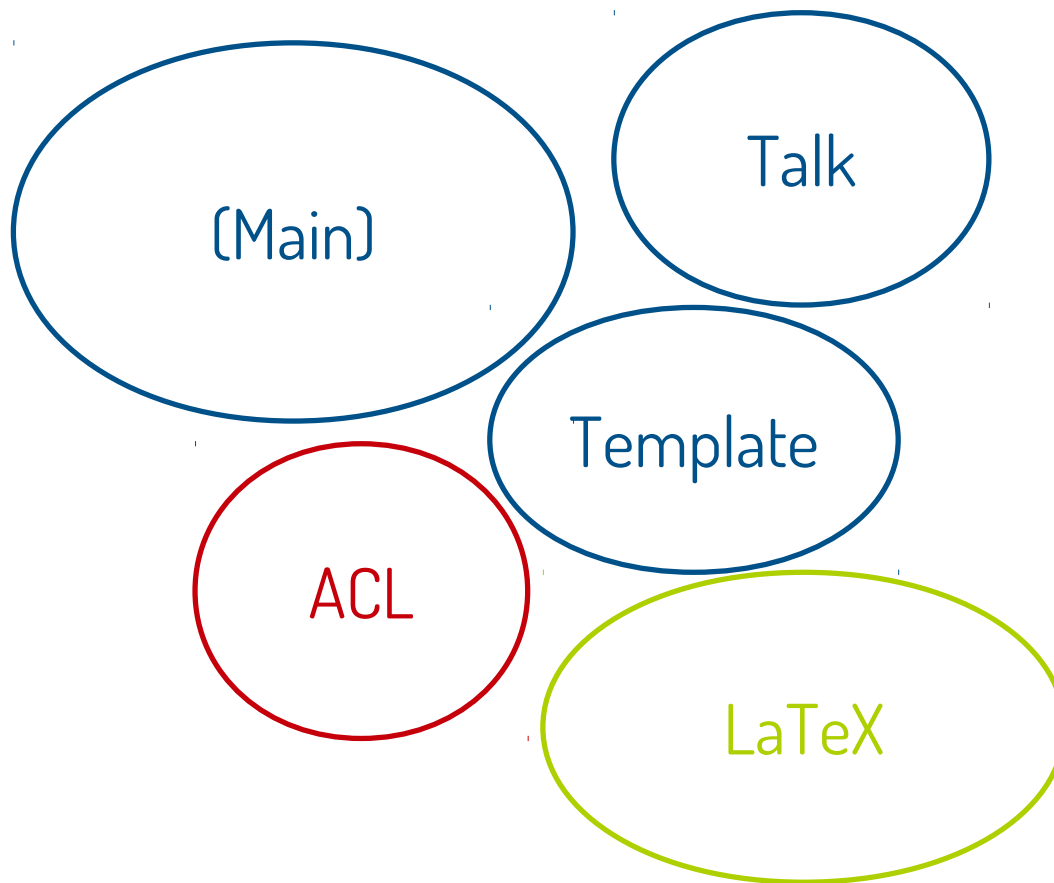

This page was last modified on 23 February 2015, at 12:05.
This page has been accessed 86 times.

- Based on mediawiki 1.24
 - Enhanced with customized extensions
 - Tool to **convert pages to latex documents** and pdf based on customized templates
 - Advanced **Access Control List** to manage accesses
 - Integration with website
 - **PublishAux Namespace**
 - projectdocs/index.php/PublishAux:Overview
 - projectdocs/index.php/PublishAux:_partner_name
 - i.e: projectdocs/index.php/PublishAux:DUTH
-

- STEP 1. Create new template
 - `projectdocs/index.php/LaTeX:W2L_TemplateName`
 - The content is expressed as: `{{W2L_CONTENT}}`
 - STEP 2. Use the Latex/PDF tool
 - Options
 - Select documentclass (article/book/report)
 - Select template
 - Export to .tex or to .pdf
-

- ACL specifies which users are granted access to articles, as well as what operations are allowed on them.
 - Options
 - **Define target:** page, namespace, category
 - **Define user:** specific users, all users, all registered users, users belonging to specific groups
 - **Define actions:** All, Manage rights of pages, Read, Edit, Create, Delete, Move
-

Confidential (registered users)

Public (view: all, edit: registered users)
